

BECOME A FRIEND OF real junk food manchester

Real Junk Food Manchester is our city's first not for profit, waste food, pay-as-you-feel restaurant. The project tackles food waste and its huge environmental impacts by turning food that would otherwise go to waste into beautiful dishes.

We serve all of our meals on a pay-as-you-feel basis, because we feel strongly that everyone in our city should have access to enough food, and great food.

Our restaurant runs to the same food safety standards as any other food business, which means there are items that we have to buy regularly. This includes things like cleaning supplies, tin foil, cling film, blue roll, etc.

We are looking for companies to become "Friends of Real Junk Food Manchester" by supporting us with a monthly donation to help us run our project safely, and feed bellies not bins!

For £15 a month (or any amount you choose) you could help us to purchase the things we need to be able to run our project safely and well, transform more food waste into amazing meals, and create a unique inclusive environment where everyone is welcome, regardless of income.

You can set up a regular payment through PayPal, or set up a direct debit.

In return you will receive a "Friend of Real Junk Food" design to display at your business that lets your customers know that you're supporting a local not for profit which is tackling food waste and providing access to great food for all.

You'll also be named on our website as a friend and supporter.
